

# Blower Motor

**Project Title:** Blower Motor assembly.

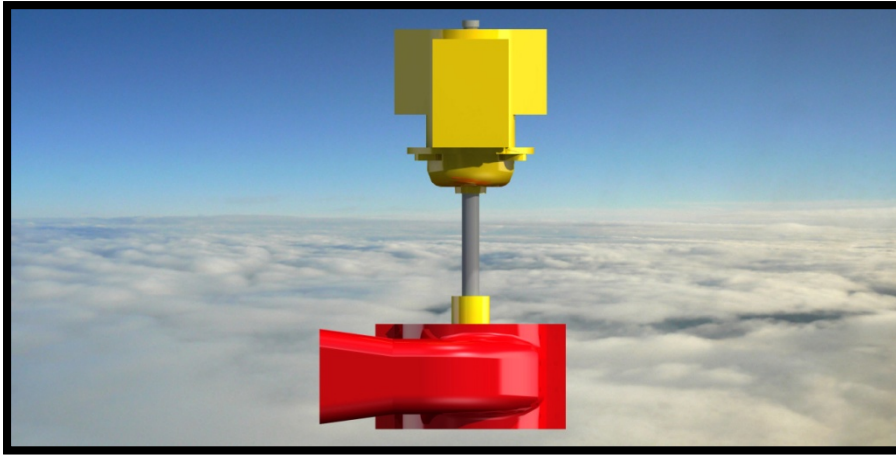

**Aim:-** To design and model the Blower motor.

To design a complete Blower Motor. . This was a modeling project

A blower motor is **the component within a home's HVAC system**. The motor blows heated air through vents when the heating system is in use. Conversely, some blower motors blow cold air when the air conditioning system is in use.

The Above Picture is a rendered version of the Blower Motor designed, modeled and assembled in CATIA.
